VOLUNTEER INCOME TAX ASSISTANCE PROGRAM (VITA)

The Volunteer Income Tax Assistance Program (VITA) is an IRS program offered to those making less than \$55,000 a year. Low to middle income workers have access to the refundable Earned Income Tax Credit. For parents, the Child Tax Credit also helps offset the cost of childcare. To access these tax credits and keep more of your hard-earned money, you must file a federal income tax return. There are a couple of free tax preparation options some people qualify for which will also save an average of \$210 tax preparation fee. It also offers assistance in filing taxes to those who are disabled, elderly, or those who are limited in their English speaking abilities. Certified volunteers provide free services for those who qualify. Anyone with an annual income of \$66,000 or less can access free income tax preparation online through myfreetaxes.com. This service will prepare your federal and state income tax returns for free by asking users a series of questions which will assure an accurate tax filing.

For more information about VITA tax services in your county, please look below for the county in which you live in. Information about who to contact and how to schedule can be found under various counties.

A

Adams County
